Education

Web Developer
Career Accelerator Program
Prepleaf by Masai
August 2023-present

**Bachelor of Science,
Computer Science**
IPS Academy Indore
March 2017 - August 2020

Technical Skills

- MongoDB
- Express.js
- Node.js
- React
- JavaScript
- Git
- HTML5
- CSS3

Soft Skills

- Effective Communication
- Teamwork
- Adaptability
- Problem Solving

Abhiraj Patel

Full Stack Web Developer

Professional Summary

Professional Summary: Versatile Full Stack Web Developer with advanced skills in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Utilizes Generative AI and consistently masters new technologies swiftly. Excellence in problem-solving, collaboration, and creating scalable web applications.

Projects

Movie-App [Live Demo Link](#) [Github Repo Link](#)

- React
- JavaScript
- HTML5
- CSS3

Responsive Web Design

- Developed a movie application using HTML, CSS, and JavaScript.
- Implemented responsive design to ensure optimal performance on various devices and browsers.
- Utilized React.js framework to enhance user interface functionality.
- Integrated frontend components with server-side APIs to fetch movie data.
- Optimized the application for speed, performance, and scalability.

Weather App [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- React
- Git
- HTML5
- CSS3

Responsive Web Design

- Developed a responsive weather application using React.js, HTML, CSS, and API integration.
- Implemented features such as real-time weather updates, location-based forecasting, and search functionality.
- Used Git for version control and collaborated with backend developers to integrate frontend components with server-side logic.
- Ensured cross-browser compatibility and optimized performance for a seamless user experience.
- Actively applied best practices, design patterns, and software development principles to deliver high-quality code.

Spotify Clone [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- CSS3

Responsive Web Design

- Designed and implemented a responsive Spotify Clone App using HTML, CSS, and JavaScript.
- Showcased proficiency in asynchronous programming with debounce functionality.
- Created an efficient and user-friendly website, demonstrating strong front-end development skills.
- Ensured responsive design principles were applied for optimal performance on various devices.
- Used Git for version control to manage code efficiently and collaboratively.
